RE: Security Companies

To Whom It May Concern:

I am writing this letter to provide my professional opinion relative to Security Companies and Services they provide.

As a Management Company in Southwest Florida we have a significant number of gated communities in which we have security services. The purpose of this letter is to advise that there are a number of security companies, (Wackenhut, Abacus, Kent Security and Weiser Security) in the area. As a management company, we have experience with many.

My experience with all these companies is companies such as Weiser Security have an inexpensive hourly rate however, this may look good for budget concerns but ultimately this fails due to the quality of personnel put onsite along with turnover.

My experience is that the company that works above the norm and consistently provides professional staffing is Kent Security.

It would be my recommendation to anyone looking for professional security to take a look at Kent Security

If you should have any questions, please feel free to give me a call at (239) 263-1577.

Sincerely,

Kirk Bliss
President
