

July 14, 2006

To whom it may concern:

This letter is being issued as a recommendation for Kent Security Services. Kent was hired for the new construction project in Immokalee named Ave Maria University after an extensive performance, evaluation and competitive presentation in which they were selected for the work. Through the preparation and presentation process they were required to provide the proposed project team for the site complete with resumes, recommendations and history of the staff. Kent Technology took the opportunity to provide the information as a tool to assist in the development of the project security, limited access control, reporting systems, safety, and communication techniques. In short their approach is to become a teammate rather than just going through the normal presentation procedures.

The staff provided has been very successful in the operations of the project which operates seven days a week and 24 hours per day. The scope of work has increased due to expansion of the phases of the work and Kent Security has been on the cutting edge side of the changes, eager to recommend and implement strategic plans that work. We know construction and Kent knows security. Their office staff and on site staff communicate faster and better than any security force I have used in the past 27 years.

Suffolk/Kraft highly recommends Kent Security and considers them our leading candidate for our work. We consider Pat Hurley, Shelton Blackwell as leaders in the industry for their work. Our unwritten motto at Suffolk/Kraft is "we all do dishes", the same can be said for Kent Security. Thank you for the opportunity to recommend Kent and please call to discuss any of the qualifications regarding your next project. Kent has a can do attitude, excellent leadership skills.

We consider it a privilege to offer this recommendation to Kent Security.

Should you have any questions I can be reached at the following numbers:

Office-239-348-0429 or mobile number: 239-253-1043.
